... what could be cooler? Strawberries and ice cream

PHEW IT'S HOT

If You Think It's Warm, Summer Doesn't Start Until Saturday!

With the succession of heat waves and high temperature records already this year, British Columbians are convinced that summer came a long time ago. But it hasn't!

In fact, the official start of summer will not be until 1:57 p.m. Saturday (June 21).

At that time the sun "reaches" its farthest northern point and the earth globe starts tilting the other way—and the sun begins its slow "return" to the south.

The official beginning of the summer season Saturday also will be the longest day of the year, though there are only a few seconds difference in length during the four or five days from now.

Summer heat records usually are established in July, and usually from the 14th to the 25th. So if the pattern of dry, hot weather continues, Kelowna's all-time high temperature of 102, set July 17, 1941, may well be exceeded this year.

The summer season will officially end at 8:10 a.m. September 22—and if it is any consolation, winter's official beginning comes at 3:40 a.m., Dec. 22. That day also will be the shortest day of the year and Old Sol again will "start its annual northern trek."

AN EDITORIAL

Simply Pure Partisanship

THE VANCOUVER SUN, badly scooped by the unfortunate timing of the Second Narrows bridge collapse, and searching for a new and different angle, over-reached itself in its front page editorial on Wednesday. The coast newspaper has pursued a consistent policy of opposition to the Bennett Government, often to the point of petty carping.

In the bridge disaster, it remains consistent. Its editorial called for an investigation into the highways department of the provincial government and a recheck of all the major construction projects undertaken by the present administration of that department, including the Deas Island tunnel and the bridges at Kelowna, Agassiz-Rosedale, Fort Mann and over the Pitt and Peace rivers.

The only reason—excuse?—it can find for its demand is that the public has become disturbed by the colorful character of the highways minister. It said: "Too much talk has been attributed to the minister about the 'triumph of imagination over the cold hard facts of engineering.' Too much has been heard about 'testing the curves' of new highways by ministerial car. In all the rush and bustle and the flying from place to place, some things may have been forgotten or gone astray."

Thus the simple fact that the minister of highways is blessed with "color" prompts the SUN to demand a full investigation into highways department affairs.

The SUN also argues that the fact that several highway department officials have left the department, is a further reason for having a departmental investigation. It does not explain that this exodus started under the Coalition government and was prompted by the fact that the engineers found they could obtain greater recompense for their services in private industry than in the civil service.

Nor does the SUN trouble to explain that even had these men been still employed in the department they would have had little to do with the construction and collapse of the Second Narrows bridge. This bridge is being built by the toll authority, it was designed by an outstanding engineering firm and was being constructed by a competent construction company. The department of highways department engineers would have made no difference whatsoever.

But aside from all this, the SUN's demand for an investigation into the highway department is weak because it is premature. There is an investigation underway into the bridge collapse. Should this turn up any suggestion that the department itself was at fault, then by all means let us have a departmental investigation. However there is at this time absolutely no reason to believe the department is at fault and therefore there is no reason to start muddying about an investigation which is not necessary, an investigation which the SUN demands simply because it does not like the flamboyant character of the highways minister.

The coast paper reveals its hand when it says it has no "wish to inject political partisanship into the tragedy's aftermath." That is a group of words meaning absolutely nothing. The SUN's whole effort and its whole purpose is to embarrass the minister of highways and the provincial government. Its editorial was nothing else than pure "political partisanship."

BRIDGE WILL BE OFFICIALLY OPENED AT NOON ON JULY 19

Lake Okanagan bridge will be officially opened by H.R.H. Princess Margaret at 12 o'clock noon on July 19, it was officially announced this morning.

The \$7,311,000 structure, which is being built for the B.C. Toll Highways and Bridge Authority, will be open for public use immediately following official ceremonies.

Princess Margaret will arrive in Kelowna the evening of July 18, and will leave the morning of July 22.

HOPE CAR CRASH KILLS PASSENGER

Britain Offers Plan For Cyprus

LONDON (CP)—Britain today invited Greece and Turkey to join in "an adventure of partnership" in Cyprus which would lead eventually to sharing sovereignty of the Mediterranean island.

Prime Minister Macmillan announced the long-awaited plan for the colony's future in the House of Commons shortly after NATO's permanent Council in Paris appealed to the three nations for a peaceful solution.

Under the plan separate legislatures would be established over a seven-year period for the rival Greek and Turkish communities. These legislatures would have the final say in communal affairs but other powers, including internal security, would remain in the hands of the British

governor. Macmillan said if Greece and Turkey agreed to join in the "imaginative plan" Britain would be prepared "at the appropriate time" to share sovereignty of Cyprus with them. This would be subject to Britain's retaining military bases and facilities.

Macmillan described the proposal to the House of Commons as "an adventure in partnership."

He promised a cessation of violence in Cyprus would bring a relaxation of the emergency regulations, including a return of Cypriots now exiled from the colony.

While he did not specify names, this reference was taken to mean that Archbishop Makarios, leader main in the hands of the British

See BRITAIN OFFERS—Page 5

Elderly Man Kept Penned Inside An Electric Fence

STAYTON, Ore. (AP)—Police arrested a man Wednesday night they said kept his 88-year-old father penned up within an electric fence.

Daniel George Cole, 60, was charged with assault and battery and held in lieu of \$2,500 bond.

Sheriff's deputy Charles Thornton said Cole's thin, stooped father, Eugene W. Cole, was taken to a hospital here, where his condition was described as fair.

Thornton said the elder Cole was kept captive in a triangular enclosure at the rear of his son's home.

Around the enclosure ran a two-strand electric fence that carried a strong current. Thornton said the old man lived in an old, filthy, 16-foot trailer house within the fence.

Police investigated after reports that a man had been heard screaming near the Cole house for several days.

Thornton and other deputies hid in bushes near the enclosure and saw the elder Cole lying on the ground.

KICKED FATHER

The son was kicking the old man, Thornton said, and pouring water on him.

Thornton quoted the younger Cole, a movie projectionist and part-time preacher, as saying the treatment was necessary discipline to make his father take care of himself.

The old man's only apparent source of food was a refrigerator within the enclosure, which contained dry bread and sour milk, Thornton said.

The trailer where the old man lived contained a make-shift bed with rags for bedding, a spoon that was chained to the table and a old dog dish.

Federal Hospital Insurance Plan May Start July 1

OTTAWA (CP)—Federal hopes are that five provinces will have hospital insurance plans in operation by July 1.

So far only Newfoundland has signed an agreement to take effect on that date. However, Health Minister Monteth informed the Commons Wednesday that the four western provinces may yet sign in time to start receiving federal contributions then.

Ontario, which also has signed an agreement, is to start its hospital plan next Jan. 1.

Fraser Brigade Gets Shaking

LYTTON, B.C. (CP)—The Fraser Brigade was camped near this small but party-minded Curbo village today after a trip that definitely shook any cobwebs caused by a prolonged stay at Lillooet.

The three canoes ran several choppy but minor rapids without incident, then portaged another pound; swirling stretch between Lillooet and Lytton, 47 miles apart.

The brigade suddenly came upon a vicious stretch in which all three canoes were plunged down into watery crevices, then thrown high and clear of the river by spumes of water boiling up from the bottom.

Bodies Of Four Bridge Victims Still Missing

VANCOUVER (CP)—The tide-ripped waters of Burrard Inlet at Second Narrows have refused to give up the bodies of four of 18 workmen killed when a partially completed bridge collapsed Tuesday.

Expert divers hired by Dominion Bridge Company, steel contractors on the bridge, probed the underwater wreckage without success.

Two bodies besides the 14 recovered were reported located in the entanglement of steel late Tuesday but they could not be immediately recovered.

LAUNCH INQUIRY

Meanwhile, Chief Justice Sherwood Lett of B.C. launched an investigation of the carnage Wednesday, less than a day after his appointment as a one-man inquiry commission.

Philip L. Prantley, Montreal consulting civil engineer, was appointed engineering consultant and adviser to the commission.

MERCURY AGAIN CLIMBS IN 90's

Most popular spots: beaches and shady lawns.

Most sought-after commodities: soft drinks and ice cream. Busiest occupations: pop vendors and the ice man.

Most uncomfortable: those who have to put in a day's work in hot, sticky plants and offices.

All because another heat wave has descended upon the Okanagan and the temperatures are up in the 90's again. Yesterday's 91 was highest this month, but two degrees below year's high of 93 set May 27 (an all-time record for May).

There is hope for the sweltering populace. Today may hit 90 or better, but the weatherman predicts cloudy periods Friday and somewhat cooler temperatures.

Man. Premier Reluctant To Give Up Gov't

WINNIPEG (CP)—Premier D. L. Campbell today conferred with members of his cabinet for the third straight day since his Liberal-Progressive party lost the provincial general election Monday.

There still was no sign of an announcement of the course the premier will follow as a result of the election in which the Progressive Conservatives won 26 seats to form the largest group in the 57-seat legislature. The Liberals took 19 seats and the CCF 11, while one independent member was elected.

Mr. Campbell could resign and allow Lieutenant-Governor J. S. McDermid to call on Conservative leader Duff Roblin to form a minority government. However, constitutionally, the government could continue in power until it was defeated in the legislature.

None of the party leaders indicated any interest in a coalition government. The CCF was to hold a caucus Friday night.

UNABLE TO EXPLAIN

Scientist Missing For Six Years Found Working At U.S. Race Track

INGLEWOOD, Calif. (AP)—One day six years ago Albert Clark Reed, a scientist at the California Institute of Technology, said goodbye to his wife, patted his son's head, left home and disappeared.

The FBI, police, family and friends were baffled. The trail led 50 miles east of San Bernardino, then disappeared.

His wife, Florence, never gave up hope that he would return. He did Wednesday. He was discovered working as a groom at Hollywood Park here.

REMEMBERS ALL

"The day I left I sold my car, took a bus and went to Phoenix," he said. "I got a job handling freight."

Later he got a job handling horses and returned to California working at various tracks. His identity was discovered through a routine fingerprint check. He was using the name Alfred C. Reed.

"It's amazing," he said. "I can remember every detail of everything I have done for the last six years. But I can't tell you for sure why I left my wife and child."

Reed, a Caltech graduate and Second World War test pilot, was working as an aeronautical consultant on a secret project when he disappeared.

Will he return to scientific work? "I don't know," he said. "I love horses, you know. They're wonderful, intelligent, sensible creatures. I enjoy working with them."

Reed, balding and 51, asked about his family and was told his son, Timothy, 12, has been recovered.

RECOVER BODY

VANCOUVER (CP)—RCMP have recovered the body of Hans Joachim Knack, 32-year-old carpenter who apparently lost his life while swimming at unpatrolled West Beach off Vancouver's Marine Drive.

City Resident Injured In Bus-Truck Accident

By THE CANADIAN PRESS

HOPE—Two separate traffic accidents in the Hope area in 24 hours resulted in the death of one woman, injury to more than a dozen others, and a charge of driving without due care and attention being laid against a bus driver.

The fatal accident occurred six miles east of Hope Wednesday afternoon, while the bus accident happened shortly after midnight today three miles west of Hope. No one was seriously hurt when the bus crashed into the rear of a loaded semi-trailer truck.

Killed Wednesday when the car in which she was riding crashed off the Hope-Princeton Highway was Mrs. Helen Smook of Vancouver.

Her husband, John Edward Smook, is in serious condition in Chilliwack hospital with head injuries, while her mother, Mrs. Theresa Osterman of Richmond, was less seriously hurt.

The car plunged over a 30 or 40-foot bank and Mrs. Osterman is reported to have crawled back to the highway to flag down another car to get assistance for her daughter and son-in-law. Cause of the accident was not immediately known.

The bus driver, Burpee Barfield, Wickham, of Penticton, was charged with driving without due care and attention after his east-bound bus crashed into the rear of the trailer-truck as it was proceeding slowly up a grade.

Truck driver John Krausner of Kamloops was knocked unconscious by the impact and his 13-ton load of flour and molasses spilled out over the highway. Fifteen of the 20 passengers aboard the bus, as well as Wickham and Krausner, were injured but only two women—Mrs. Edna Rudland, 34, of Kelowna, and Mrs. Mabel Crowther, 67, of Vancouver—remained in hospital. They were not seriously hurt.

Damage resulting from the crash is expected to total more than \$20,000. Highway crews first sanded the road where the flour and molasses had spilled from the damaged truck. Water was used later to flush the sticky mess from the road.

It is presumed the bus involved in the accident was enroute to Kelowna. Greyhound officials stated the bus would be arriving two hours late.

Calgary Man Found Shot

CALGARY (CP)—A man was found shot to death near his car in southwest Calgary early today. He was identified as Adolph Kising.

His body was found less than two feet from the door of his wrecked car near the main entrance to Saree military camp. He had been shot twice in the head by a small calibre gun, believed by police to be a .22-calibre rifle.

A gun of similar calibre was discovered near the body. However, detectives all but ruled out the possibility of suicide.

Communists Release Two Missionaries

PEIPING (Reuters)—Two American Roman Catholic missionaries held in a Communist Chinese jail for five years on spying charges left Shanghai today by ship for Hong Kong.

The missionaries, Rev. Joseph McCormack, 65, and Rev. Cyril Wagner, 51, were released from jail Saturday after serving sentences on espionage charges. They sailed for Hong Kong aboard the steamer Changsha.

Townsend Suggested Princess Visit City

VICTORIA (CP)—A glowing account of the scenery of the Okanagan, given by Group Captain Peter Townsend resulted in a special request by Princess Margaret to spend four days there during her two-week tour of B.C. next month, an authoritative source said Wednesday.

Townsend, the divorced commoner who once courted the princess, visited the Okanagan for several days during a round-the-world tour he made after the princess announced she could not marry him.

Princess Margaret "specifically requested a weekend rest in the Okanagan" during her tour, Premier Bennett said in announcing her itinerary last week.

The source said she made the request after Townsend told her of the wonderful scenery in the area. He has been seeing the princess in London.

TOWNSEND VISITED KELOWNA JUNE 16

Group Captain Peter Townsend spent a few hours in Kelowna on June 16, last year, although his visit, for the most part, went unnoticed.

Townsend, accompanied by noted British author, Richard Pape, gave newsmen a merry chase around the city. He visited the Kelowna Club and Canadian Legion before being button-holed in the Royal Anne Sternwheeler.

Townsend, at that time, was touring Western Canada in a Land Rover.

When interviewed, the group captain admitted he was capti-

Governments Have Duty To Make Regulations Known

This newspaper has always felt that governments at all levels, civic provincial and federal, are remiss in their duty to the people by their failure to advise the people of the changing laws. Too often changes are made in the statutes without the people who are affected by the change being advised.

Last week the *Chilliwack Progress* suggested it would be interesting to know just how many British Columbians are aware of the fact that it is now an offense to drive, with parking lights only, later than half an hour after sundown. (We admit our ignorance.) This is one of the new regulations included in the motor vehicle act.

Some publicity has been given a second provision which makes it mandatory for drivers to dim their lights if they are within 500 feet of the car ahead. Yet it is safe to say that this is news to thousands of B.C. motorists.

The *Progress* pointed out that the B.C. *Government News*, a monthly publication of unknown distribution, says that motorists can find out about these and other new regulations by sending to Victoria for them and

paying 25 cents for one book and 75 cents for another.

The *Progress* points out this is a sad effort on the part of the government and that it is the duty of the government to keep the people informed of changes in the laws and regulations as they affect the people. Isn't it up to government to use every possible means of advertising and publicizing such regulations?

Apparently the government does not think so. It puts the onus on the driver. Ignorance is no excuse. Fine them first and then tell them.

There is too much of this sort of thing going on and it isn't confined to provincial governments. Municipal administrations are prone to adopt the same approach. Were we a magistrate and such a case came before us, a case of a regulation being changed and not properly publicized, we would treat it with the utmost leniency.

Morally, if in no other way, governments are obliged not only to regulate, but to make their regulations known to the people.

Visit Sunnyvale Centre

There was a time in Kelowna, nearly five years ago, when some children were forgotten. These children did not come up to the intelligence quotient required by the department of education. Some people call them "Children Limited." They are boys and girls, who are born to you, and to me, and their brains do not just grow up. They grow physically to manhood and to womanhood, but their gray cells do not keep up with the physical growth. You have seen these children on the streets. You have stared at them. You have probably remarked they were "different." Well they ARE. They are children who need special teaching. Did the department of education provide it? NO. So the Kelowna and District Society for Retarded Children was formed. There just happened to be enough citizens here interested in these children to do something about it.

On June 10, 1953, at the Kelowna Health Centre scores of people attended the organizational meeting, and elected officers. Then, Sunnyvale Centre was born. For years, the executive members scrounged. They asked for free, (because there was no money in the treasury) oil to heat the old Aquatic ballroom, which was the schoolroom; apple juice for that morning break; desks and seats; and supplies. Kelowna and district service

clubs, church organizations, WAs and women's institutes put their collective fingers in the dike, and plugged it sufficiently for the time being.

Then, executive members of Sunnyvale Centre applied to Community Chest for financial assistance. The chest came through, but there still wasn't enough money to operate. So, the group held home-bake sales, raffles (if the R.C.M.P. will pardon the expression), art shows, dance recitals. Today, still scratching for funds, Sunnyvale is operating to the advantage of thirteen children.

Thirteen, as unlucky as it sounds, is a happy number for Sunnyvale. But, another room is needed with more applicants for the fall term. That, too, takes money. Have you any?

When Sunnyvale opened nearly five years ago, one of the pupils said: "This is the first time I have ever gone to school." She was 24.

On Friday, (that's tomorrow) from 1:30 there will be open house at Sunnyvale Centre. You will see the work done by these children. . . . You will talk to the teachers. . . . you will have tea and a sweet. Sunnyvale Centre's children will present a program; and you will enjoy it. If you have a few minutes tomorrow afternoon, drop down to Sunnyvale. It will do your heart good.

OUTLOOK BRIGHT

Business Outlook Depends Heavily On Trends In U.S.

KINGSTON, Ont. (CP) — Canadian business outlook during the next few months will depend heavily on United States trends but the outlook for the next five to seven years is bright, two speakers told a financial conference at Queen's University today.

J. Douglas Gibson of Toronto, assistant general manager of the Bank of Nova Scotia, said if U.S. business fails to show significant improvement by early next year, the implications for Canada would obviously be serious.

"Without a recovery in the United States there is small prospect of any broad and sustained improvement in world markets for basic commodities on which depend the prospects not only of much of Canada's export income, but for checking the decline in investment in the major resource industries," he said.

In view of the expected decline in business capital investment next year, it is important that Canada press ahead with public works planning as fast as is feasible, Mr. Gibson told 35 senior bankers, civil servants and executives.

PREDICTS SLOW-DOWN

Professor D. W. Slater of Queen's predicted a slowing down of Canadian economic growth for three or four years, followed by an acceleration. He expected less inflationary pressure from the demand side of Canadian markets in the next few years.

for bankers, civil servants and executives.

EASIEST THING IN THE WORLD TO HIT — BUT LOOK WHO PROFITS

LETTERS TO THE EDITOR

Editor, Kelowna Courier

DENTAL TECHNICIANS

Dear Sir: A copy of your newspaper of June 3 has been brought to my attention. Since it concerns Mr. Ernest Roy Owen, a member of the Dental Technicians and Public Denturist Society, as well as an issue of vital importance to everyone concerned with health—and that must include all of us—I thought you would be interested in some additional facts on this always-topical subject.

I would merely like to bring into sharper focus some of the issues raised by Bill 45, which was referred to in your newspaper accounts. For instance, I would like to bring to your attention some remarks by Dr. Paynter, of the University of Toronto, who was hired by the Manitoba Government to make a study concerning the establishment of a School of Dentistry in Manitoba. In his report, Dr. Paynter said, "... the point to be learned from the present situation is that people could be trained in a reasonably short time to make prosthetic appliances for the public and to make them well... sufficient of the Manitoba public are satisfied with the services they are getting from these so-called illicit practitioners, otherwise they could not remain in business or increase in number and prestige."

It must be admitted that there are many thousands in this province who are willing to testify that a competent dental technician is fully capable of undertaking the whole process of dental prosthesis. After all, they should know, for they are a living example of our contention that dental technicians are to be entrusted with the field of dentistry.

The allocation of this field of dentistry to the dental technician is both desirable and inevitable. The whole history of medical care is one of specializations and the creation of new professions. Certainly, experience tells us that the creation of ancillary personnel will not detract from the status of the profession of dentistry. For example, the status of the medical doctor has not decreased by the creation of professions of dentistry, nursing, etc. In our opinion, the time is now ripe for further specialization and, indeed, the separation of surgical and preventative dentistry from dental prosthetics cannot but result in superior dental care for the general public.

Again, many dentists in this country are convinced that the time is ripe for enactment of Legislation similar to Bill 45, but invariably, their opinions are suppressed by their professional society. For example, the following, which appeared in the minutes of the Alberta Dental Association Annual Meeting, June 24, 1950, Lethbridge, Alberta:

"Dr. Addinell stated that in his opinion the time was coming when he believed that dental mechanics would be permitted legally to make full dentures for the public; and that possibly this would not be too bad an arrangement since then dentists could confine their efforts to the more important branches of the work."

Finally, it would appear that many members of the profession are reconciled to the fact that it is inevitable that ancillary personnel will play the larger part in dental care in the not too distant future. The following appeared in the 1950 "Transactions of the Canadian Dental Association":

"... the future technician will be a better trained individual, with one or more years of formal instruction, and will enter perhaps to a greater extent into the prosthetic field. The result will be that the dentist of the future will require increased basic training to fit in for his new field, which in turn will necessitate an altered curricula in the schools."

MOVIE CENSORS
Ottawa in 1911 was the first Canadian province to establish a provincial board of motion picture censors.

LOOKING AHEAD

LONDON (CP)—A request for seats for "My Fair Lady," the Broadway hit now running at Drury Lane theatre, reached a ticket agency from a prisoner in Dartmoor jail. He wants three seats for July 7, 1953, "for a party on the day after my discharge."

Firemen And Caps Take Night Tilts

The Firemen edged the Centennials, 10-9 last night in a tight, nine-inning thriller in men's softball action in King's Park.

In Rutland, the surging young Blue Caps drubbed the Rovers 12-7 in another thriller, with the junior club showing better hitting and fielding in the win.

The Firemen came up with a new pitching find, in the person of Frank Martin, young Westbank hurler with a fast, windmill delivery.

Firemen 10 Centennials 9
Things looked tough for the Firemen as they faced a first-inning, 5-2 deficit, but they came back in nine thrilling innings of men's league softball to edge the Fighting Centennials 10-9. Both clubs showing much better balance, the result of practice and co-operation by the Club 13 in helping them get under way, came up with a tingling brand of softball.

The Firemen came up with a new find on the mound, Martin, a slim young man with a windmill whip to his delivery and plenty of spin on the ball. He took over from Bruce Cadman, who showed lack of practice, and went the distance for the victory, pitching his way out of a three-run deficit. Hugh Currie started for the Centennials, with Bill Chobotar taking over in the sixth, but it was fielding that made the big difference, as the Centennials tallied 12 bobbles to four for the Firemen.

Cadman got in trouble in the first, as he walked one, gave up three hits, and let four runs in before he retired the side, with a deficit of 4-0. The Firemen came back on three walks, one hit and two errors, for two runs.

Martin retired two by strikeouts in the top of the seventh, and held the Centennials runless, but the Firemen added one on a hit and two errors, and they never looked back.

Line score:
Centennials 410 012 010-9 6 10
Firemen 201 033 10x-10 6 4

Blue Caps 12 Rovers 7
The junior Blue Caps showed better hitting and crisper fielding as they handed the Rutland Rovers a 12-7 beating at the Rovers' home grounds. The clubs swapped home runs, with Harry Klassen getting the 'Caps' clout and Al Volk chalking one up for Rovers, both of them the result of fielding errors, but counted as homers.

Gerry Walls started for the 'Caps, with Gib Loseth coming in the fourth and taking credit for the win. Bill Westrodowski started for the Rovers, with playing-coach Earl Fortney coming in the fourth also and taking the loss.

The 'Caps pulled off the only double play, Bulach-Casey-Williams. The 'Caps started the scoring in the second, counting three on two singles, two walks and an error, with Rovers replying once. The 'Caps added three more on a homer and two singles, leading 6-1 going into the fourth. The Rovers came back with a five-run rally, to tie the ball game in the fourth.

Water Skiing Enthusiasts Stage 'High Time' Meeting

By GEORGE INGLIS
(Courier Sports Editor)

Tonight is the night for the "High Time Meeting." The water skiers of the Orchard City are going to meet for the purpose of forming a club, and it's certainly "high time" such a thing took place.

In the past few years this increasingly popular aquatic sport has been catching on with prairie fire speed, growing hopelessly top-sided with enthusiasts, and increasingly less under control.

The sport, conducted in quiet waters removed from the maddening throng, can be a highly pleasurable pastime, exposing the participant to a minimum of danger and a maximum of pleasure.

If, however, the towing craft has to display the agility of the great broken field runner Fritzie Hanson, threading its hazardous way through a maze of snarling little boats, half of them towing their own cargo of skiers, the picture becomes slightly clouded with danger.

Should the operation take place in fairly shallow water with a host of paddlers, splashers and swimmers providing a human slalom course for the hapless skier to manipulate, the danger increases.

Add to the snarling power boats and wallowing humans a few pilings, a pinch or two of weed, and the undertaking becomes downright hazardous. The natural limitations of keg-like balance and porcine grace are accentuated by abnormal agencies.

This is fast becoming the picture locally.

COMING UP, ONE CURE

This is the situation that chairman Art Dawe will try to rectify this evening.

His qualifications? The best, according to His Worship, Mayor Dick Parkinson, the man who appointed him. He knows nothing about water-skiing, but a lot about administration, so should be a natural.

Maybe "Mr. Regatta" has something there, at that. The men who have carried the brunt of water-skiing on their shoulders for years, fellows like Verne Ahrens and Larry Ashton to name only two, have been water-skiers themselves, and the task of administration has been hampered by too close a relationship with the sport and the participants. Sometimes a long look is the more objective one. If this proves to be the case tonight, the new club will be well and truly launched, and the need for it is great.

As Mayor Parkinson also said, when he announced Mr. Dawe's appointment, "From the standpoint of water safety, such a group will be a wonderful idea."

For assistance of a technical nature, Mr. Dawe has already accepted the volunteered aid of Larry Ashton, and no doubt will have a number of other ski enthusiasts offering their services tonight.

The main thing that everyone concerned wants to see tonight is a good turnout—of skiers and potential skiers. This will provide Mr. Dawe and the committee he chooses with something concrete to work on.

Future plans for the club will depend on the amount of enthusiasm shown, and the amount of aid that will be needed to get the club running smoothly. It may prove to be a golden opportunity for young people who have had a hankering to try their luck on the slats, but haven't had the access to any equipment.

With a strong organization, plenty of intra-club competition can be encouraged, with the healthy result of increasing the ability of local athletes. As time passes, the possibility of inter-city competition within the valley, and of routinely beyond that, will be a pleasant reality.

With such an organization, back to the natural assets of the location, the Orchard City, and the famous Lake S'AVE, skiing.

Red Caps Out, Nosed In 9th Of Thriller

The Rutland Red Caps went down fighting, in the semi-finals of the SOK'M League play-offs, losing a close one to Vernon 7-6, after tying the count in the top of the ninth.

In this exciting inning Rutland went to bat trailing 6-2, but a rally brought in four runs and tied the game, driving pitcher Marshall Yawney from the mound. Every Rutland batter went to the plate in this inning. Hildred getting a hit, Kroschinsky a walk and Lindroth getting to first on an error, Hildred scoring, Kroschinsky scored on a hit by Forsythe, after Church fanned for the first out.

Jim Gray drove in the tying runs with a hard drive to right field. At this point McMechan was sent in to put out the fire, fanning Horning for two away, walking Sakamoto, and then with runners on second and third Rieger hit to the pitcher for the third out.

In the last of the ninth Hamilton singled, but was forced at second, then two infield errors filled the bases and pitcher McMechan came through with a single to score the winning run.

Rutland is now out of SOK'M League action, and Vernon goes into the finals on Sunday against Enderby, who eliminated Salmon Arm in two games, 9-4 and 10-8. The local nine plans to play some exhibition games from time to time, and has one lined up with a Kelowna junior team for next week.

Line score:
Rutland 000 200 004-6 9 2
Vernon 040 100 101-7 11 2
Batteries: Rutland - Forsythe and Rieger; Vernon - Yawney, McMechan and Webber. Umpires: Kashuba and Hildred.

Okies Stretch OMBL Vantage

KAMLOOPS (CP) — Kamloops Okonots downed Kamloops Jay Rays 3-2 in an Okanagan Mainline Baseball League game here Wednesday, pounding out 12 hits. The Jay Rays picked up only five hits and had three errors. The Okonots had two errors. Jack Olson hit three for four for the Okonots.

for the second night in a row. Portland and Vancouver became deadlocked at 5-5 in the seventh inning and then hung up goosegoes for seven more frames before the Beavers pushed across the winning run in the 15th on Bob DiPietro's sharp single with two men on the sacks.

Poor Casey Stengel, his New York Yankee pitching staff was so thin he had to get some help with a trade. So what happens? A couple of old hands give up only six hits between them in two games.

Southpaw Whitey Ford spun a three-hit shutout at Cleveland Tuesday. Then Case hauled Art Ditmar out of the bullpen Wednesday night and the right-hander pitched a no-hitter for 5 1/3 innings in his first start before getting reliever Ryne Duren's help for a 3-2 success over the Indians.

Higher British Wool Tariff Comes As Surprise To U.K.

LONDON (CP)—News of the from Britain find themselves at a serious competitive disadvantage compared with the lately existing position.

The National Wool Textile Executive protested against Canada imposing higher tariffs on British imports while indicating a willingness to negotiate with other countries.

Wool exports to Canada, a major item in Anglo-Canadian trade relations, amounted to nearly £12,000,000 last year.

"It seemed legitimate to hope that no action would be taken at least until after the Commonwealth conference in September—particularly when the board of trade sent a message to the Canadian government expressing serious concern."

The Yorkshire Post says "this is a strange way of promoting Anglo-Canadian trade."

SHOULD DEFER DUTIES

The editorial adds: "Surely, if Canada's desire to increase trade with this country is genuine, it would at least have been more seemly to defer increasing the duties on British goods until corresponding increases could be simultaneously effected in the other cases, thus maintaining the existing tariff relationship."

"Unless and until Canada adjusts her duties on Italian and other foreign goods, wool clothes

Isle Of Man Is Still Tax Payers' Haven

DOUGLAS, Isle of Man (Reuters)—This independent island off the northwest coast of England will continue to be a haven for those who dislike Britain's income tax.

The island's budget, presented to the Tynwald (parliament) Tuesday, does not change the present rate, about one-half that of Britain.

The 221-square-mile island, bought by the Crown from the Duke of Atholl in the 19th century, can pass its own laws. It is not bound by laws of the British Parliament unless specifically included.

Its population of 50,000 includes many Englishmen who have retired here to escape heavy taxation.

BRITAIN OFFERS

(Continued From Page 1)

of the majority Greek-Cypriots, would be allowed to return when order was restored.

Macmillan said "it is deeply to be regretted that all attempts for a settlement to the Cyprus problem had thus far proved unsuccessful."

The prime minister announced the British plan after a 48-hour pause to give the NATO Council in Paris time to talk over the problem with Britain, Greece and Turkey.

Greek Cypriots want the island to become Greek. Turks want the island partitioned. The dispute has been a bitter one and fighting last week between Greeks and Turks on Cyprus cost at least 17 lives.

Indications Tuesday were that Greece and Turkey both had rejected the new plan. They were given a full-in in advance by the plan announced by Macmillan, Greece and Turkey could be asked to appoint representatives to co-operate with the British governor, now Sir Hugh Foot, during the seven-year period.

British Bank Rate Reduced

LONDON (CP)—Britain's bank rate, which sets the price at which the Bank of England makes money available for loans to other banks, was reduced to five per cent from 5½ per cent today.

The move opened another notch on the tight control valve holding back Britain's spending.

The rate was cut to six per cent March 20, then to 5½ per cent May 22.

Conciliation Report Has No Local Effect

VANCOUVER (CP)—A majority conciliation report released Wednesday recommends that 28,000 British Columbia members of the International Woodworkers of America receive no wage increase this year.

District IWA President Joe Morris immediately announced that a strike vote will be taken beginning Friday. It will be completed in five or six days, he said.

The report was signed by University of B.C. Professor George S. Allen and employers representative George Robson. A minority finding by union representative Robert Smeal proposed a 10-per-cent wage increase, the amount asked by the union.

Interior lumber workers are not affected, according to the local IWA office. However, negotiations are under way between lumber firms and the IWA in the interior for a new contract. Present one expires September 1 of this year.

POLICE COURT

A Vancouver man, Walter Rainbath, spent three days in jail when he was unable to pay a \$10 fine, plus costs, on a charge of vagrancy.

Convicted in city police court of exceeding the 30 miles an hour speed limit in the city (on Bernard Ave.) Walter Henry Fuller was fined \$25 and costs.

Appearing in city police court on Indian Act charges of being intoxicated off a reserve, John Lezime and Edward David Thomas were fined \$20 and costs each.

Crossing a double solid line on a highway (at Fint's Corner) cost John Williams a fine of \$15 plus costs, in district police court.

Pleading guilty to a charge of exceeding the 30 miles an hour highway limit near Hope, B.C., Leslie Irving Foan was fined \$15, plus costs.

Sequel to a minor highway accident in Glenmore came in district police court when Sakuchi Shimooka was convicted of backing up his motor vehicle when it was unsafe to do so and was fined \$20 and costs. Court also recommended he be re-examined for his driver's licence.

Ike's Retention Of Adams Splits Republican Party

By JACK BELL

WASHINGTON (AP)—Congressional Republicans bowed today to President Eisenhower's decision to keep Sherman Adams, his No. 1 aide, on the job. But many made it plain they aren't happy about it.

Republican state chairmen, to whom Eisenhower plays host at a hotel breakfast today, split over the question of Adams. Some still insisted he should get out. Others supported Eisenhower's backing him. Many declined comment.

In New York, Democratic National Chairman Paul M. Butler left no doubt the Democrats will make a major political issue out of Adams' dealings with industrialist Bernard Goldfine of Boston.

ACCEPTED GIFTS

As to Eisenhower's insistence on keeping Adams as his chief assistant, Butler added: "The president's own conduct makes him as morally responsible for this improper conduct as Mr. Adams is himself."

Adams has testified he accepted gifts and favors from Goldfine, a family friend, and also talked to two federal agencies studying complaints against Goldfine's companies. But he said there was no connection and he had no intent to win favored treatment for Goldfine.

Eisenhower agreed with Adams' concession that he could have "acted a little more prudently," but said he admired and respected his chief aide for ability and integrity.

"I need him," Eisenhower added.

CRITICAL HANDICAP

Perhaps significantly, almost the only members of Congress volunteering a good word for Eisenhower's decision to keep Adams at his desk were those not up for re-election this year. But Senator Charles E. Potter (Rep. Mich.), fighting hard for another term, said that with Adams still in office the Republicans will face "a critical political handicap in the 1958 campaign."

Many Democrats held their fire, obviously waiting until late in the campaign. But there was a rising chorus of criticism. Senator Wayne Morse (Dem. Ore.) told the Senate that "Sherman Adams has been wallowing in the mire of dirty conduct." He

Marler Mentioned As Liberal Party Leader Successor

OTTAWA (CP)—Duncan K. MacTavish, 58-year-old Ottawa lawyer, has resigned as president of the National Liberal Federation.

George Marler, former Liberal transport minister who lost his Montreal Mount Royal Commons seat in the March 31 election, has been mentioned as a possible successor to Mr. MacTavish.

But the federation's resignation announcement Wednesday said Mr. MacTavish has been asked to continue the duties "during the period of transition in which the federation now is engaged."

PRESIDENT SIX YEARS

An official later said no successor can be chosen until the 260-member advisory council of the party meets. No date had been set for this meeting.

Proposed Seaway Tolls Result In Mixed Reaction

OTTAWA (CP)—Proposed shipping tolls for the St. Lawrence Seaway recommended a lower rate for domestic than for foreign package freight.

First reaction to the recommendations, tabled in the Commons Wednesday by Transport Minister Hees, was favorable. Lionel Chevrier, Liberal Commons member for Mont Laurier and a former Seaway Authority president, told the Commons they seem attractive.

But in Toronto, the Dominion Marine Association, which represents 90 per cent of Canadian ship owners, said it is completely opposed to them as too high.

The rate suggestions come from the toll committees of the Canadian Seaway Authority and the U.S. Seaway Development Corporation. They must be approved by the two seaway agencies and by both governments.

BODIES OF FOUR

(Continued From Page 1)

the rapidly developing north shore of Burrard Inlet, 20 INJURED

Twenty workmen were injured in the bridge collapse. Two of them were in fair condition in hospital while 12 more were "improving." Six were released following treatment.

Highways Minister Phil Gaglardi visited some of the injured in hospital Wednesday. He returned to the bridge as rescue operations continued.

The Workmen's Compensation Board put three inspectors on the scene to check on safety regulations. The WCB said weekly inspections had been carried out. The board is investigating to see if any infractions of safety rules led to injury or death.

Dominion Bridge asked for witnesses to help in compiling factual information on the disaster.

TOUGH SALVAGE JOB

Salvage of the steel will present major problems, salvage experts agreed. One salvage man said: "It looks like a big derrick and acetylene torch job. We would have to take out the rivets and lift up the steel piece by piece."

Loss is estimated at \$3,000,000 to \$3,500,000. Construction will be delayed six months.

Thousands of Vancouver citizens visited the area Wednesday and auxiliary police were needed to keep people away from the scene of a tragedy.

Police records revealed that there were 79 workmen on the spans when they collapsed—41 escaped uninjured.

VANCOUVER (CP)—The old Second Narrows Bridge had the busiest day in its history Wednesday as thousands of persons drove across to see the wreckage of the new Second Narrows

Bridge which collapsed the day before.

The toll gate on the bridge reported a record 21,000 cars paid 20 cents each to cross the old span, which was to have been replaced by the new \$16,000,000 bridge.

The total was at least 4,000 more than the busiest average week-day. The day the bridge collapsed, 15,000 cars crossed its older neighbor despite a two-hour shutdown at the peak of the evening rush hour to allow ambulances to pick up the 18 dead and 20 injured.

Today, the toll keepers said, the curious were likely to swell the number of cars crossing to about 19,000.

STRONG STUFF

Perique tobacco, a strong spicy leaf used for flavoring lighter "mixtures," is grown only in Louisiana.

THE DAILY COURIER 5

RCAF Search For Missing Vessel

HALIFAX (CP)—RCAF search and rescue headquarters said today a plane from Goose Bay, Labrador, has started a search for a 16-ton boat with four persons aboard unreported after it left Hebron, Labrador, Saturday on a 14-hour trip to Nain.

Three men and a woman sailed on the Vita Gertrude when it left Hebron Saturday evening. The boat is believed to have been operated by the Hudson's Bay Company. High winds and fog were reported in the area Saturday.

HOSPITAL RECEIVES VALUABLE DONATION

Costly Anaesthetic Machine Presented By Kinsmen Club

On Tuesday, May 17 the Kelowna General Hospital was the recipient of a new anaesthetic machine for the operating room. The donation from the Kinsmen Club. This major item of equipment was received by Mrs. McCormack on behalf of the Hospital Board and handed over by Mr. A. S. Burbank, president.

Also present at the ceremony were Owen Nelmes, secretary, Kinsmen Club; Alan Ellsland, director, Kinsmen Club; C. F. Lavery, administrator, Kelowna General Hospital; Miss C. C. Sinclair, director of nursing; Mrs. Keating, assistant director of nursing; Miss W. Grigg, O.R. supervisor; Miss K. C. Wood, O.R. nurse and Dr. K. Greer, secretary of the medical staff, Kelowna General Hospital.

Changing techniques in anaesthesia, and the ever increasing number of operations being performed in the hospital, had indicated for some time that another anaesthetic machine would in the immediate future become a necessary addition to the hospital equipment. The generous response of the Kinsmen Club is most appreciated by the hospital board, the medical staff and the hospital staff. This new machine, a special model Heidbrink Kinetometer, is designed to handle the latest anaesthesia gases, and will form a most welcome addition to the equipment in the operating room of the hospital.

The machine costs approximately \$1,000.

Mrs. McCormack stated that the

Report Heard On Conventions By Kelowna Women's Institute

Reports on two important conventions were given at the June meeting of the Kelowna Women's Institute. Miss C. V. Matheson, district administrator, Kelowna, gave a resume of the district meeting held at Oliver May 6 when the new officers, president, Mrs. Blackey of Westbank, vice-president, Mrs. Potchery of Osoyoos, secretary, Mrs. Palmer of Kelowna and directors, Mrs. Whitaker of Summerland and Mrs. Venables of Okanagan Centre were elected.

Mrs. Hewlett in her account of the biennial conference held at UBC May 28-29 stated that the new officers were Mrs. J. O. Decker, president, Mrs. R. Partington, vice-president and Mrs. R. C. Palmer, Mrs. F. Woodward and Mrs. C. White, directors. Mrs. White was also elected second representative to the Federated Women's Institutes. At this conference a cheque for \$4,295 was presented to Mr. Angus, head of the children's settlement at Victoria and the WI centennial cookbook was offered for sale.

Following these reports, Mrs. Humphreys gave an outline of the Kelowna Health Centre's equipment and its use. Letters from pen pals were read by Mrs. Rhodes and Mrs. Smith gave a most interesting paper on "Lace"

WINFIELD

WINFIELD—Mrs. I. Offerdahl accompanied by her sister Miss Rita Richards of Vancouver, have returned home from a trip which included a visit to Banff and Lake Louise. Miss Richards has since returned to Vancouver.

Mr. Cook Sr. is a patient in the Kelowna General Hospital. Friends and neighbors wish him a speedy recovery.

Mrs. B. Cordett and son Garth have returned from Vancouver where they attended the wedding of her eldest son to Miss Margaret Clarke of Edmonton in the Seventh-day Adventist Church at Whalley.

Mrs. M. Ferguson of Alberni is a visitor at the home of Mrs. B. Cordett.

Mrs. D. Miller and family of Osoyoos were visitors at the home of her mother, Mrs. Mary V. Edmunds.

Mr. and Mrs. D. Rivers and baby daughter of Vancouver are visitors at Rivers' Ranch.

Congratulations are due to Mr. and Mrs. Randy Holtzki on the birth of their daughter, a sister for Greg.

Mr. and Mrs. Ron Holtzki of Quenel were visitors at the home of the latter's parents, Mr. and Mrs. F. Weston.

Mr. and Mrs. L. Chato motored to Morrist for the weekend to visit with their son and family, Mr. and Mrs. L. R. Chato.

Miss Evelyn Teir of Burnaby is visiting at the home of her brother-in-law and sister, Mr. and Mrs. Pete Rodall and family.

East Kelowna Guild Pleased With Sale

EAST KELOWNA—Members of St. Mary's Parish Guild held a very successful sale of home baking in the O. L. Jones furniture store Friday of last week.

Following the summer season the Guild will reconvene in the fall.

Mrs. R. W. Johnson has returned from a visit to Vancouver where she was the guest of her son-in-law and daughter, Mr. and Mrs. A. Clapp. She plans to return shortly to spend some time visiting her husband who is a patient in Shaughnessy Hospital.

Mr. and Mrs. L. G. Butler spent the weekend at the coast. Mr. and Mrs. A. Bianco and family of Salmon Arm, spent the weekend at the home of Mr. and Mrs. S. Heltzman.

Mrs. F. Thorneley, who has been a patient in the Kelowna Hospital, is now recuperating at home. She is reported to be progressing satisfactorily.

Visiting at the home of Mr. and Mrs. R. F. Borrett were Mr. and Mrs. J. Sutton of Vancouver who are former residents of the district.

St. Mary's Sunday School closed Sunday last for the summer season.

Mr. and Mrs. A. M. Thompson of Westbank were visitors of Mrs. W. Hince at the weekend.

Mrs. G. Beaton and family of Vancouver were weekend guests at the home of Mr. and Mrs. E. Malen.

Holiday guests at the home of Mr. and Mrs. A. Fork are Mr. and Mrs. Reihl of Grand Prairie. Friends of Mr. B. Riches will be pleased to hear he has returned home from the hospital and is reported to be progressing favorably.

Rites Of Former Local Girl Will Take Place Here

Mr. and Mrs. W. H. Smith of Princeton, B.C., announce the engagement of their only daughter, Norma Marguerite, to Roger Christie of Prince George, only son of Mr. and Mrs. Christie, Eureka, California. The wedding will take place in Kelowna the latter part of August.

Arrangements For Summer Events Progressing Well

Close to 30 members attended the ladies' auxiliary to the Aquatic general meeting June 18.

The open house on July 4 will be under the supervision of Mrs. Stan Mathews and Mrs. R. C. Lucas. Mrs. Stanley Beardmore, Mrs. G. R. Bishop, Mrs. Dez Shorthouse and Mrs. K. S. Wilson will work on their committee.

The Aquatic will be open for inspection from 10 a.m. to 8 p.m. with someone in attendance at all times to show people around.

Mrs. D. Shorthouse is this year convening the costume committee. It has not as yet been decided just how many costumes the auxiliary will make.

Mrs. Stan Mathews reporting for the queens committee informed the meeting that arrangements are progressing smoothly. This year the crowning of the Lady-of-the-Lake and presentation of royalty will be a public affair held in the Jubilee Bowl at 8 p.m. the Saturday of the Regatta. The auxiliary was pleased to hear that Jane Stirling Wood will be returning as swimming director. Miss Joan McKinlay once more will be handling the rhythmic swimming.

The recent bake sale held by the Ogopogo swim club girls, assisted by auxiliary members was reported as successful by Mrs. Syd Cook. This money will help the girls pay for transportation to various swimming meets in which they compete.

This week the members will be busy selling Aquatic memberships. Have you bought yours yet? They are available from all auxiliary members as well as in several downtown businesses.

Hostess Mrs. R. L. Wignall served the girls that favorite June fruit, strawberries and ice cream, at the conclusion of the meeting.

West End To Produce Show By Canadian Playwright

LONDON (CP) — Its name changed for the second time, Patricia Joudry's play, Teach Me How to Cry, opens in London next month as the first all-Canadian production ever to play the West End.

It will be as Noon Has No Shadows that Miss Joudry's play about young love in a prairie town makes its transatlantic debut, a few months before it is released by Universal International Films under the title of The Wonderful Years.

John Steele, the former Toronto photographer who now produces his wife's plays, said the American movie-makers found resistance at the box office for the play's original name, which served it through successful CBC radio and television productions and successful stage performances in Canada and the United States.

Steele said the title wouldn't do for London either.

New Executive Appointed To Glenmore PTA

GLENMORE — The annual meeting of the Glenmore PTA was held on Monday, June 16 in the activity room of the school at 8:00 p.m.

The minutes of the last annual meeting were read by the secretary, Mrs. T. Gray, and were approved. The treasurer's report was then read by Mrs. W. F. Morton.

Mrs. A. Butch gave a short report on the social committee, after which F. J. Coe reported on the films committee. It was decided to discontinue film nights in future as the attendance has been so poor due to the advent of TV in Kelowna.

Mrs. J. A. Schmidt gave her report on membership, which showed a total of 41 paid members. It was hoped that next year the membership would be greatly increased.

Mrs. Harold Willett, the president, then gave a summary of the activities of the PTA in the past year and though the membership was small, several very successful and worthwhile projects were carried out.

The meeting was then turned over to Mrs. A. Lynn, chairman of the nominating committee, and the following officers were elected for the coming year 1958-1959: President, A. Lynn; vice-president, Mrs. W. F. Morton; secretary, Gordon McKay; treasurer, Mrs. F. J. Coe; membership, Mrs. Rex Marshall; publicity, Mrs. W. Robson; magazines, Mrs. Bruce Moubrey; refreshments, Mrs. J. A. Schmidt; and Mrs. Sheila Clark, hospital, Mrs. T. Gray and Mrs. Frank Brown, honorary member to the executive, D. Braund.

F. J. Coe thanked the outgoing executive and presented Mrs. Harold Willett with a past president's pin. Refreshments were then served.

Mr. and Mrs. E. Hartwick left on Tuesday for an extended holiday in the East. They plan on spending some time in Winnipeg, Man., and in various cities in Ontario before returning.

Interesting visitors at the home of Mrs. Edwin Snowsall last week were Mr. and Mrs. George Stirling, of Victoria, B.C.

Mr. Stirling was a pioneer in the Glenmore district, having been a teacher at the first school in Dry Valley in 1907. Glenmore was known as Dry Valley in the early days and was mainly cattle country. Among the pupils Mr. Stirling taught were the McKinley boys, after whom McKinley's Landing was named. A great many of his pupils were Indians. While here Jack Snowsall drove the Stirlings out to see if they could locate the foundations of the original school building.

Visiting at the home of Mr. and Mrs. Gordon Pointer are the latter's niece and nephew Mr. and Mrs. Lloyd Laird, of Vancouver.

HITHER AND YON

HOLIDAYING WITH FAMILY

Mr. and Mrs. D. R. Harding journeyed to Vancouver early this week to meet the former's sister, Mrs. C. V. Cameron and small son Douglas who flew from their home in Hamilton, Ont. to spend a month and a half visiting in Kelowna with Mr. and Mrs. F. Harding. Mr. Cameron's parents, and other relatives.

FINAL MEETING . . . of the Jr. Hospital Auxiliary before the summer recess was preceded by a buffet supper on Tuesday evening at the Kelowna Golf and Country Club.

MR. ERWIN WANNER . . . travelled to Vancouver this week for an indefinite stay.

WASHINGTON HOLIDAY . . . Mr. and Mrs. Len Leathley enjoyed a brief trip to Spokane, returning via Wenatchee, at the weekend.

VERNON SOCIAL NOTES

VERNON — A four-generation reunion was enjoyed yesterday at the home of Mr. and Mrs. Fred A. Nesbitt, of Kwanis Village, Vernon. Present was their son, Charles, of Revelstoke; his son, Layton Nesbitt, serving with the RCAF, and the latter's son, Kenneth, aged two years. Layton Nesbitt is en route from his posting on the north tip of Vancouver Island to Eastern Canada. Charles and Layton Nesbitt were accompanied by their wives.

VERNON — Approximately \$75 was realized on Friday by the Foster Chapter, Order of the Eastern Star at its "Gay Nineties" Tea" convened by Mrs. N. A. Lincoln. Funds will go to the chapter's cancer dressing project. Worthy Matron Mrs. E. B. Carter received the guests. Mrs. J. McCouniey convened a display of antiques. An exhibition of pet portraits, the work of Mrs. Iris Hudson was featured. Mrs. Hudson was in attendance to explain the intricate work involved. She was assisted by her daughter, Mrs. Fred Urquhart, of Kelowna.

RESTORE TOWER WORCESTER, England (CP)— Restoration work now is complete on the centuries-old tower of Worcester Cathedral. The work started six years ago and has cost \$227,000.

"The English are sentimental," he explained. "They love to cry. But they don't want anyone to know. Nobody would tell his friends that he was going to see a play called Teach Me How to Cry."

The Steeles, who now live in London, have insisted on keeping Noon Has No Shadows strictly Canadian. Their director is Leon Major of Toronto, a recent Canada Council scholarship winner. The set designer, William Brodie, is the son of CBC executive Steve Brodie.

Miss Joudry, born in Spirit River, Alta., and brought up in Montreal, says most audiences tend to think Canadians and Americans are all alike, and she wants to show them there is a difference. The play first saw the light of the day in the CBC's "Stage 53" series and was adapted for television before it was first staged at the off-Broadway Theatre de Lys in New York.

AWARD WINNER

In 1956 it was produced at Toronto's Hart House Theatre. Later in the same year it won the best actress award in the Dominion Drama Festival for Suzanne Finlay, the Toronto television actress who will appear in London in the starring role of Melinda.

Another Toronto TV actor, Jonathan White, will appear opposite Miss Finlay in the leading male role of Will. White has acted in the Stratford Shakespeare Festival and with Toronto's Crest Theatre group.

Toronto actress Irena Mayeska, another member of the play's original Canadian cast, will play the role of Anne, a schoolgirl. Others in the cast are Theresa Thorne and her husband, Garry, of Winnipeg; Frances Tobias of Toronto and Mary Barclay and Stuart Nichol, both of Montreal.

An all-Canadian cast last played in London 15 months ago when the Crest Theatre appeared in The Glass Cage by the British playwright and novelist, J. B. Priestley. Reviewers praised the

acting but the play was coldly received and closed after running barely a month.

ALICE WINSBY Women's Editor

THUR., JUNE 19, 1958 THE DAILY COURIER 6

PEACHLAND

PEACHLAND — Mrs. Arthur Kopp has received the appointment of district commissioner for the Girl Guides in the Peachland and Summerland areas, replacing Mrs. Ted Piers who has gone to Prince George.

Attending the Southern Patrol Leaders' camp at the weekend, held at the new campsite near Wilson's Landing, were Guides Sharon Kopp, Doreen and Diane Ruffe, and Marva Champion, who were under the leadership of Mrs. Bruce Blagbourne, divisional commissioner, and Mrs. Magda Senwick, Guide lieutenant of the 1st Summerland Co. of Girl Guides.

Two full squares from the Peachland and Summerland areas travelled to Spokane to attend the 10th annual State Festival held last Friday, Saturday and Sunday. Featured at this mammoth jamboree was the famous Texan "caller" Joe Lewis, who won the hearts of all attending. From the Totem Twirlers Club, went Ray and Doreen Fredrickson, Muriel and Chuck Inglis, Carol and Jo Khalembach, Ray and Freida Miller and Dee and Lorne Fleming.

Bob West from Trail spent the weekend at home with his parents, Mr. and Mrs. A. West, Trepanier.

Mr. and Mrs. Sid Smalls motored to New Westminster at the weekend, to see the latter's mother, Mrs. G. Boehm, who is

THE PRESERVING KETTLE

by Frances Reister
OF GENERAL FOODS KITCHENS

Raspberry jam is one of the easiest to make, as well as the most delicious, so why not try this very successful recipe?

RASPBERRY JAM
4 cups prepared fruit (about 2 quarts ripe raspberries)
6 1/2 cups (2 3/4 lbs.) sugar
1/2 bottle Certo fruit pectin

To prepare fruit. Crush completely, one layer at a time, about 2 quarts fully ripe raspberries. (If desired, allow a half cup of pulp to move some of the seeds.) Measure 4 cups into a very large saucepan.

To make your jam. To the measured fruit in saucepan, add 6 1/2 cups sugar. Mix well. Place over high heat, bring to a full rolling boil. Boil hard 1 minute, stirring constantly. Remove from heat, stir in Certo at once. Skim off foam with metal spoon. Stir and simmer for 5 minutes to cool slightly, to prevent floating fruit. Ladle into glasses. Cover at once with 1/2 inch hot paraffin. Makes about 10 medium glasses.

When we mention "pectin" many women say "I don't really understand what it is." Well, pectin is simply the gelling substance found in all fruits in varying amounts. Certo is pectin extracted from fruits rich in this natural substance, then refined, concentrated and performance-controlled. So naturally, when you use Certo and follow the tested Certo recipes, your jam and jelly always set perfectly!

Preserving Pointers: It's a good idea to temper all new glass jars before using, in order to prevent breaking. Simply place the jars on a rack in a pan of cold water, and then heat gradually to the boiling point.

Keep canned fruits in a cool dark place. The darkness protects the color, the coolness helps preserve the flavor.

Keep an eye out for my next column which will have another recipe. By the way, if you have any problems with your jam and jelly making, I wish you'd let me know. I may be able to help you.

seriously ill in the Royal Columbian Hospital.

Mr. and Mrs. Ken Fulks, with their two daughters, Jo Ann and Kathy, are spending a few days in Spokane.

Budget Tone Protectionistic; Industry First Consideration

by HAROLD MORRISON
Canadian Press Staff Writer

Finance Minister Fleming's full budget may bear greatest significance in its snowballing impact on the economy.

Its tone is protectionistic. Its attitude is one of making the safety of home industry the government's first consideration. It appears to throttle some of the spirit of the General Agreement on Tariffs and Trade and chant a requiem for Britain's proposed free trade with Canada.

This mood may be heartening to Canadian manufacturers, particularly those who face ever-increasing competition from a host of foreign producers in the Canadian market. In a world of economic recession, competition tends to become more intense and vicious.

CONSUMER MAY PAY
The policy outlined by Mr. Fleming of hardening Canada's anti-dumping laws may eventually lead to an expansion of home industry and the creation of more jobs for a swelling labor force.

But it also may lead to higher consumer prices and perhaps a new spiral of inflation as workers strive to seek more pay to meet higher living costs.

Mr. Fleming warned in his budget that Canada was becoming a high-cost economy, tending to price herself out of world markets. But his budget does nothing to reduce those costs.

The chief problem facing any government bent on increasing protection for home industry is the bitterness among foreign competitors that may result.

WOOL, STEEL PROTECTED
Mr. Fleming has boosted the tariff on wool cloth coming from Britain and says he plans to raise it on imports from Italy and other countries. He has increased protection for Canadian steel producers as well as parts of the zinc and pipe and tube industries.

He intends to renegotiate talks with the United States and has asked the tariff board to recommend whether the rates should be changed on rubber footwear coming mainly from Hong Kong, Japan and other Asian outlets.

The board is to be kept busy, just as the tariff commission is kept busy in the U.S. Before the Canadian board are studies into textiles. After that will come possible revisions in rates on chemicals, radio and television sets and other products.

But by far the most significant move is the Progressive Conservative plan to demand that all products coming into Canada bear a price that covers not only production costs but also profit. It will not matter if a manufacturer decides to get rid of his production at a loss in his home market and at the same price in Canada too. He will have to up the price in Canada or face

federal dumping duties. This policy was imposed by the previous Conservative government in 1930-35. The victorious Liberals shelved it in 1938. It was eliminated altogether in 1948 when GATT, the instrument to

free world trade was developed. It now seems the Progressive Conservatives don't hold too much faith in prospects for freer world trade, though they have stated they will stand by Canada's agreements.

WAR BISCUIT
WELLINGBOROUGH, England (CP)—An antique shop in this Northamptonshire town offers a biscuit guaranteed to have been mailed home from a trench during the First World War.

RED CROSS INSTRUCTORS COMING HERE

Canadian Red Cross water safety division again will conduct school in Kelowna for swimming instructors, life guards and interested persons. Dates are from June 28 to July

1. Instructors coming here are (left to right): Peter B. Tudhope, provincial director; Linda Shier and Jim Scantland, who is former Kelowna resident and top competitor at junior regattas and one time winner of

juvenile boys aggregate at senior Regatta.

CUTTING DOWN
LONDON (CP)—Britain's armed forces had 626,000 officers

and other ranks March 31, compared with 650,000 at the end of last year.

FINE CRAFT
LITTLEHAMPTON, Eng. (CP)—A new £23,000 lifeboat on test in this Sussex seaside town was deliberately capsized four times, each time righting itself within a few seconds.

BRIDGE COLLAPSE
VANCOUVER (CP)—Collapse of the new Second Narrows Bridge was B.C.'s worst industrial tragedy in 28 years.

On Aug. 13, 1930, a mine explosion at Blakely, 16 miles from Princeton, claimed 44 men. Only one miner survived the blast.

Both disasters were similar in its impact but not of the same magnitude. Workman Compensation Inspector James Whitelaw said.

Mr. Whitelaw, who had worked as a motorman in the mine, said he had quit work just three hours before lightning struck a steel rail and carried into the mine, causing the explosion.

"We dug for weeks trying to find the bodies," he said. "And during the whole ordeal, wives stood at the mine entrance waiting for word on the missing men. Tuesday's disaster was equally as terrible but I couldn't compare the two."

"With the mine, everything was under round and you couldn't see what was going on but with the collapse, everything was in full view."

Another major B.C. disaster was the explosion of the SS Greenhill Park in Burrard Inlet on March 26, 1945.

Nine workers were killed in the blast which was blamed on sodium chlorate in the cargo.

PRIVATE FEE
LONDON (CP)—Doctors who examine prospective emigrants to Canada now are permitted to set their own fees, by an agreement between the British Medical Association and the Canadian government. Previously there was a standard fee of one guinea (about \$2.95).

Fleming Spoke For Two Hours

OTTAWA (CP)—Finance Minister Fleming took two hours and one minute to deliver his first budget speech Tuesday night—and not once did he pause to take a drink of water.

Mr. Fleming started speaking at 8:05 p.m. EDT and completed the 20,500-word speech at 10:06 p.m. His voice was strong and clear until about 9:45 p.m. when it began to lose its power. However, his voice picked up in the closing minutes.

Marathons are nothing new for the 53-year-old minister. His favorite recreation is long-distance swimming.

HONOR EXPLORERS
LONDON (CP)—The Royal Automobile Club said its first diamond jubilee award will go to British explorer Sir Vivian Fuchs, his chief engineer, David Prat, and their 10 companions on the recent trans-Antarctic expedition. The trophy is for the year's outstanding contribution in automobile transport.

NORTH AMERICAN SKY DIVING CHAMPIONSHIPS

ABBOTSFORD AIRPORT, JUNE 14-23
8 am-7 pm daily

See this spine-tingling display of human skill and courage in one of the world's newest sports. In the sky, more than a mile above Abbotsford, daring American parachutists will perform breath-taking acrobatics at speeds approaching 125 miles per hour. Their parachutes puff open behind them to break their free fall. The winning team at this

competition will represent the United States at the World's Sky Diving Championships in Europe, when teams from countries all over the world will compete for top honors in sky diving. Don't miss this exciting Centennial high-light event—the first of its kind in Canada!

ADMISSION: \$1.00 per person. \$3.00 per car load.

Junior Grade Cops Meet First Time In 9 Years

For the first time in six years, the Grade VII class of the Kelowna Junior High School won the annual intra-school track and field meet, as six records topped, and one was tied.

Four of the records were broken by the outstanding Grade VII athletes, with Judy Warren and Boyd Veness cracking the 50 yard sprint marks in 7.4 and 6.5 respectively. Arina Imthorn set a new girls' high jump mark of 4' 5", and Lorne Jones was a record breaker, with 7' 3" in the standing broad jump.

Other records were made by Grade IX pupils, who have won the meet for the past nine years: Ernie Rankin, 440 yds. 62 sec.; John Caruthers, 12 lb. shot, 30' 11"; and Helen Hyde, girls' shot, 26' 5", tying the record.

Division 25 of Grade VII were the winners of the meet, with a total of 37½ points, followed by Div. 11 of Grade VIII with 30, and Div. 25 of Grade IX with 29. In the following results, the boys or girls are listed in one-to-three order, except for ties:

440 yd. (Gr. 9 boys)—Ernie Rankin, Jim Murdin, Doug Snow—62 sec.
75 yd. (Gr. 7 girls)—Diane Hawley, Pat Strohm, Lorna Bedford—10 sec.
75 yd. (Gr. 7 boys)—Ken Sawalsky, Bruce Hamilton, Steve McCallum—9.8 sec.
High jump (Gr. 8 boys)—Don Wishlow, Dieter Biebert, Cornelius VanderRoo—4' 1".

Broad jump (Gr. 8 girls)—Irma Zellmer, Arlene Tonn, Mary McKinstry—13' 6".
Standing broad jump (Gr. 7 girls)—Carol Nerlinger, Sydney Shaw, Audrey Coles—5' 1".

75 yd. (Gr. 9 girls)—Lorna McLeod, Winky Buckholtz, Carol McKenzie—9.8 sec.
75 yd. (Gr. 9 boys)—Gerald Roberson, Tie for second—Reinhold Kissman and Bernie Schneider—8.4 sec.

High jump (Gr. 7 girls)—Carola Klassen, Carol Ashton, Rosalind Burnell—3' 11".
Broad jump (Gr. 7 boys)—Jim Kerr, Richard Scrafton, Tie for third, David Bifford and Ross Landie—4' 2".

High jump (Gr. 8 girls)—Arina Imthorn, Olive Ritchie and Pat Hughes tied for second—4' 5".
Shot put (Gr. 9 girls)—Helen Hyde, Janice Walker, Sally Meikle—26' 5".

Standing broad jump (Gr. 7 boys)—Lorne Jones, Don Pantoni, Vic Cowley—7' 3".
High jump (Gr. 9 girls)—Muriel Fielder, Penny Shaw, Nona Pearson and Janice Metcalfe tied for third—4' 2".

Broad jump (Gr. 9 boys)—Bruce Bissell, Gordon Heck, Valdis Lejins—16' 7¼".
High jump (Gr. 9 boys)—Adolph Beger, Craig Hayman, Bob Yard—5' 1".

75 yd. (Gr. 8 girls)—Deedee Goutile, Lorraine Fuller, Diane Carlyle—9.8 sec.
75 yd. (Gr. 8 boys)—Edgar Fenwick, Clive Spiller, Fred Martin—Hop, step, jump (Gr. 8 girls)—Olive Ritchie, Chris Neumayer, Janet Emerson—26' 2".

Broad jump (Gr. 9 girls)—Donna Lakeman, Valerie Turgoose, Carolyn Klapowschak—12' 10½".
Broad jump (Gr. 8 boys)—Wayne Laface, Wally Buhman, Richard Buloch—15' 4¼".

High jump (Gr. 7 boys)—Lawrence Schammerhorn, David Borden, John Sofonoff—4' 2".
Broad jump (Gr. 7 girls)—Gail Garbout, Wendy Kerfoot, Elaine August—12' 5¼".

Hop, step, jump (Gr. 8 boys)—Ron Loken, Gary Heaver, Floyd Leboe—28' 11".
Shot put (Gr. 9 boys)—John Caruthers, Lloyd Atkins, John Karpenko—30' 11".

Discus (Gr. 9 girls)—Grace Hubble, Irmgard Kruger, Arlene Nicklen—64'.
220 yd. (Gr. 8 boys)—Doug Roberts, Marshall Fowell, Grant Shirreff—26.5 sec.
Shot put (Gr. 8 girls)—Sharon Matthews, Shirley Ryder, Margaret Kirsch—24' 2".

50 yd. (Gr. 7 girls)—Judy Warren, Karen Thompson, Barbara Doell—7.4 sec.
50 yd. (Gr. 7 boys)—Boyd Veness, Harry Stoltz, Allan Pauls—6.5 sec.

POPULAR ROUTE

LONDON (CP)—Silver City Airways which ferries automobiles across the English channel has received its 40,000th car book, with 21,741 at the same time last year.

Veteran Women Golfers Meet In 3rd Round Open

TORONTO (CP)—Two women, hole and banded her tee shot off line on the second. She didn't bother to finish the hole.

Ontario women's open golf title today's third-round match play in the 43rd championships.

Rae Milligan of Calgary, who won in 1955, advanced to the round of eight by whipping Canadian women's open champion Betty Stanhope of Edmonton 9 and 7 Wednesday at Thornhill Golf and Country Club.

She plays 65-year-old Ada Mackenzie of Toronto, who has won the Ontario open crown nine times, the last in 1950. Miss Mackenzie ousted Margaret Hunter of Toronto 4 and 3.

TEE SHOT OFF
Miss Milligan started the match with two pars while Miss

Godbout upsets Willey, Davis Cup Contender

TORONTO (CP)—Francis Godbout, unranked in Canadian tennis, Wednesday credited Bob Bedard's coaching for improving his game enough to upset the country's third-ranked player, Paul Willey of Vancouver.

Godbout, 20-year-old University of Sherbrooke student, beat Willey 6-4, 3-6, 6-3 in the first round Toronto Cricket Club's men's singles championship.

Godbout said Bedard, first-ranked player, tutored him during the last few weeks while both were in Sherbrooke, Que.

The young southpaw, playing the game since he was six, broke Willey's service in the first game Wednesday and kept him on the run except for portions of this second set when he double-faulted frequently in trying to place his serves.

GOOD STRATEGY
Willey, 27, said Godbout showed good game strategy.

So good

Here's bread with a tasty difference! Dependable Fleischmann's Active Dry Yeast makes it quick and easy!

Rolled-oat Bread

1. Measure into bowl
1 cup rolled oats
2 teaspoons salt
1½ tablespoons shortening

Stir in

- 1¾ cups boiling water
and let stand until lukewarm.

2. In the meantime, measure into a large bowl
½ cup lukewarm water
2 teaspoons granulated sugar

and stir until sugar is dissolved. Sprinkle with contents of 2 envelopes Fleischmann's Active Dry Yeast

Let stand 10 minutes, THEN stir well.

Stir in prepared rolled oat mixture and

- ¾ cup lightly-packed brown sugar

- 2 tablespoons molasses

- 2 cups once-sifted all-purpose flour

and beat until smooth and elastic. Work in an additional

- 2½ cups (about) once-sifted all-purpose flour

3. Turn out on lightly-floured board and knead until smooth and elastic; place in greased bowl. Brush top of dough with melted shortening. Cover. Let rise in warm place, free from draft, until doubled in bulk—about 1 hour.

4. Punch down dough. Turn out and divide in upper. Let rest 15 minutes, then shape each half into a loaf. Place in greased loaf pans (8½ x 4½ inches, top into measure). Brush with melted butter, margarine or shortening. Cover. Let rise until doubled in bulk—about 45 minutes. Bake in moderately hot oven, 375°, about 30 minutes. Yield, 2 loaves.

Let stand 10 minutes, THEN stir well.

Stir in prepared rolled oat mixture and

Let stand 10 minutes, THEN stir well.

Stir in prepared rolled oat mixture and

UBC Scullers Face Next BEG Hurdle

By CRAIG SWAYZE
Canadian Press Correspondent

ST. CATHARINES, Ont. (CP)—

Seven scullers and 36 oarsmen will compete here Saturday for the right to represent Canada at next month's British Empire Games in Cardiff, Wales.

Representing four Canadian rowing clubs, they will try for the overseas trip in eights, fours, doubles and singles. All races Saturday are over the mile and 550 yards Henley distance.

The University of British Columbia, which won the eights at the 1954 games in Vancouver and topped the fours at the 1956 Olympics in Melbourne, Australia, will compete in both events. They face competition from Hamilton Leander, Toronto Argonauts and St. Catharines crews.

NEW UBC COACH
UBC are here for the first time under John Warren, a new coach. In 1954 and 1956 they swept the trials under Frank Read, who retired as the university rowing coach last year.

UBC will row against Hamilton and St. Catharines in the eights. They will face Hamilton and Argos in the fours.

Tom Gray, a Vancouver sculler, will race Con. Andreychuck of Leanders and Tony Biernacki of Ottawa in the singles event. Biernacki won the junior singles at last year's Henley here.

MUST BE SELECTED
Although UBC, after its success here in the past, is favored to win the eights, veteran observers aren't discounting either Hamilton or St. Catharines.

Coach Paddy Cline has put together a boat of Leander veterans while coach Jack McAleese has a crew of lightweights rowing in St. Catharines colors. Either could provide an upset.

Winning Saturday won't guarantee anyone a trip to Wales. They must first face a three-man selection board.

Headed by rowing contingent manager F. F. (Ted) Nelson of

St. Catharines, the board also comprises Jack Guest Sr. of Toronto and Nels Steacy of Vancouver.

new blue Chevron Supreme is the big step ahead in gasoline

NASCAR
Certificate of Gasoline Performance

NASCAR-certified laboratory tests, proved on the road, show that new blue CHEVRON SUPREME is unsurpassed in the combination of performance qualities needed by today's cars for every kind of driving:

1. BLUE AVIATION ANT-KNOCK FLUID vaporizes deposits that cause engine 'ping' and reduce power. Valve and ring life are lengthened up to 40%.
2. HIGH-OCTANE AIRCRAFT FUEL ELEMENTS meet the octane needs of today's high-compression engines for full power, quick acceleration, safe passing, smooth cruising over varied terrain.
3. DETERGENT-ACTION COMPOUND cleans carburetors during engine operation to increase gas mileage and end stalling in stop-and-go driving.
4. CONTROLLED BLENDING OF GASOLINE COMPONENTS provides quick starting and warm-up under the most critical conditions.
5. CLIMATE TAILORING—to match seasonal changes by areas—insures that this gasoline meets performance specifications and provides vapor-lock protection throughout the West.

CARS AND ENGINES USED in the NASCAR-Sanctioned tests were representative of 1958 and other late model engine types and compression ratios. Certified on April 17, 1958.

THE NATIONAL ASSOCIATION FOR STOCK CAR ADVANCEMENT AND RESEARCH

William H. France
President

Robert Barklier
Western Regional Director

WE ASKED NASCAR... the world's largest stock car testing authority, to check new blue Chevron Supreme against the critical requirements of today's high-compression cars.

THEIR ANSWER... certified laboratory tests, proved on the road, show that new blue Chevron Supreme is **UNSURPASSED** in the combination of performance qualities needed by today's cars for every kind of driving. Take the big step ahead in your car. At the new blue pump.

AT THE SIGN OF THE CHEVRON

By MARY-ANNA KIRSCHNER
AWARDS DAY
Wednesday, June 11, was awards day for grades 7-11. Mr. Campbell, the principal, was chairman for the ceremony and Mr. C. Buckland, school board member of Rutland, presented the awards.

Congratulations are extended to all winners for achieving such a high standing in these different fields.

GOOD-BYE
Once again our school year has come to a close. Best wishes are extended to all of the graduating class, to the teachers, and to all who will not be returning next year.

On behalf of the school, I would like to thank the Courier staff for giving us space every week for our school news.

I have thoroughly enjoyed writing up the column... so see you all next term.

We've shared our triumphs on the way. Yes, and our problems, too. We've learned the art of give and take. And that true friends are few.

While on the threshold here, we pause. Reflecting on the past, we're happy, yet regretful that we've reached this goal—at last.

It has been an "El Dorado" we've been striving to achieve. And now we find with sinking hearts.

We soon will have to leave. For far ahead—upon the ridge There hangs another star. It's light we'll follow; arms upstretched.

The journey will be far. And though from treasured friends we part,

Australian Doctor Says Cancer Linked With Age

By JOHN TRACY
Canadian Press Staff Writer

HONEY HARBOUR, Ont.—An Australian scientist today described cancer as "predominantly a disease of the old" and minimized the chances of its control through biochemical research.

Sir MacFarlane Burnet of Melbourne told the Canadian Cancer Research Conference he believes cancer is a matter of changes in the cells in the human body and rarely due to exterior influences.

The chances of these cell changes "must steadily increase with age and cancer eventually becomes inevitable."

He said "this feature of bodily organization probably represents the greatest obstacle to the realization of dreams for the indefinite extension of human life span."

However, at a press conference later, Sir MacFarlane said he is "optimistic" that humanity eventually will reduce to a minimum the exterior influences that may cause cancer.

His advice: clean up air pollution, stop smoking, avoid causes of chronic irritation and see a good doctor if you have anything that looks like cancer. He said he gave up smoking after the deaths of two lung cancer of five associates.

His view of cancer is that it strikes at random but shows a cell turnover and chronic irritation is high.

Sir MacFarlane noted a high incidence of skin cancer in the southern United States and Australia. This he attributed to sunburn, which caused some skin to flake off. It was replaced by new skin involving high turnover of the skin cells.

STOP SMOKING
However, at a press conference later, Sir MacFarlane said he is "optimistic" that humanity eventually will reduce to a minimum the exterior influences that may cause cancer.

His advice: clean up air pollution, stop smoking, avoid causes of chronic irritation and see a good doctor if you have anything that looks like cancer. He said he gave up smoking after the deaths of two lung cancer of five associates.

His view of cancer is that it strikes at random but shows a

Charges Laid By IWA After Mill Walkout

A ranking labor dispute at a Monte Lake lumber mill, where a walkout of employees has been in effect for over a week, now has resulted in charges being laid against the employer by the International Woodworkers of America, Local 4-147.

The IWA has complained to the Labor Relations Board that W. Hanbury, owner of Pendosa Pine Lumber Co. Ltd., has:

(1) Dismissed an employee because he refused to drop a grievance involving his right to return to his old job after a serious injury he sustained while at work.

(2) Failed to name a representative to an arbitration board in the question of the allegedly unjust dismissal of another employee.

The mill management is endeavoring to get another crew in to work the plant, alleging that the IWA local broke its contract by walking out.

NOT DOG'S FAULT
ST. LOUIS (AP)—Theopolls Moore, 37, learned today it was unwise to choke his girl friend's dog just because she had killed him. Moore said he had given the dog to the girl and got mad at both when spurned by her. He was fined \$50 for cruelty to animals. The dog recovered.

RESCUED FROM TUNNEL
MIBORO, Japan (AP)—Thirty-one Japanese construction workers were rescued today after being trapped for 45 hours inside a tunnel at a dam site here. All were reported in good condition. Rescue teams worked day and night to reach them after a cave-in about 1,500 feet from the mouth of the tunnel.

Will Your Bathing Suit Reveal Leg Blemishes?

By Herman N. Bundesen, M.D.

Now that bathing suit weather is here, many women may be embarrassed by dilated surface blood vessels, or bluish-red discolorations on the legs. Unless varicose veins accompany these discolorations, they are completely harmless except as far as one's vanity is concerned.

Medically, we call them spider-burst types of varices because they often appear in the shape of a spider's web. You probably would refer to them as broken capillaries or veins.

Actually, the blemishes consist of varicose venules in which blood has congested.

Because they appear so close to the surface of the skin, they become fairly obvious. Generally they occur in the middle of the thigh, below the knees, or around the ankles—the areas of greatest strain.

Unfortunately, there is not too much we doctors can do to help you this summer if you are seeking our aid in the matter for the first time.

We can inject a solution to block off the veins from further use. We do this by injecting the solution through a needle into the major vessel of the affected group. Then we massage the entire area to force the drug into the radiating and branching venules.

Eventually, the discoloration will fade, but it probably will be long after you put your bathing suit away for the winter.

In cases where the varicose venule occurs independently, and not in a group, it might be obliterated by electrolysis. This is the same technique that is employed to individual hair follicles to rid persons of excess hair.

You can use cosmetics to tone down the discolorations this summer, but I don't know of any that will cover the blemishes completely.

Meanwhile, I suggest that you take a few precautions to prevent further congestion.

Long hours of standing or walking or sitting with your legs crossed will hamper blood circulation in the legs. So might girdles and rubber elastic garters which apply pressure on the thighs.

Best thing to do is to avoid such circulation hazards.

QUESTION AND ANSWER

H. J.: I have had pains in my right heel for the past five months. It feels like I am stepping on a nail. What could be causing this?

Answer: Your difficulty could be caused by a spur, or extra portion of bone, protruding from the heel bone. Sometimes an inflammation of the ligaments around the heel or arthritis can also be at fault.

An X-ray will help reveal the cause.

Set Flexible Control Dial and forget it... you can do your whole wash automatically, or use the dial to skip or repeat parts of the washing cycle. Weigh-In-Save Door and Soap 'N' Water Saver show you how much detergent and water to use for every load. Revolving Agitator Washing saves up to 10 gallons of water with every load... without re-loading dirty, cold water. Slanting front and shelf-like door make loading and unloading, from a standing position... easy
